Models open 10 am to 6 pm M-F
10 am to 5 pm weekends

The Kimball Junction Master Plan Area was updated in 2002 after development negotiations between the Summit County planning staff and Snyderville Basin Planning Commission. While these land uses are currently zoned and approved for the area, there are no guarantees on the timeline for the development or that what is represented on the map will be built. The illustration is not drawn to scale.
